

THE MILLS WILL FIGHT RAILROADS

J.J. Hill's Refusal to Reconsider Means Opening of Big War.

Bellingham, Aug. 29.—Lumbermen of the Pacific Northwest are now preparing for a finish fight with the great transcontinental railroads over the recent advance in rates to eastern points. The fight will be a bitter one and every resource will be drawn upon, if necessary, to carry it through. James J. Hill has flatly refused to

vanee. This is the reception given the petition of R. L. McCormick, secretary of the Weyerhaeuser Timber Company, who went to St. Paul as the emissary of the lumber interests of the coast, to present the matter.

Railroads Lost Similar Case.
The fight now on is one which will undoubtedly go to the commission.

soon as it can be got there by the lumber interests. The manufacturers claim that the rates proposed by the railroads are exorbitant and will destroy their eastern trade. They are basing their fight on the similar case

On the southern railroads and lumbermen, where a two cent advance was attempted by the carrying lines and fought out in the courts. The railroads lost in the southern struggle.

That the present contest is only because of the opinion of all interested parties as to the value of their lumber. Whatever the decision of the Interstate Commerce Commission in the matter, it will undoubtedly be appealed to the federal courts for final decision, neither the railroads nor lumbermen being willing to allow a two cent advance in their case. This has already been shown by the tenacity of each.

Kill Sale of Lumber.

The advance freight will increase the cost of lumber per thousand feet, or stock weighing 3,500 pounds, \$3.50 to 40 cent shipping points. These ad-

RAIL TENDERS

Accepted By Government for
Transcontinental—Were Be-
low American Tenders.

Halifax, Aug. 29.—Tenders for steel rails have been accepted by the government from the Dominion company of Sydney, and Algoma Steel company of the Soo. The price of the Algoma steel, given free on board, for Fort William is about thirty-four dollars a ton. The Sydney company undertakes to deliver its rails at Quebec for about fifty cents. The Canadian company's duty is taken into consideration, are much less than the prices quoted by American and British firms, which is considered. There are about thirty-six tons of steel rails on hand here, but not yet at a level of demand.

The line from Sydney will be laid on the National Transcontinental to east and west of Quebec, and rails from 800 will be laid on Superior junction-Winnipeg section of the road.

Secretary of Agriculture Back.
Washington, D.C., August 29.—Secretary Wilson, of the Department of Agriculture, resumed his duties at the department today, after an extended trip through the west and northwest. He made particular observation of the conditions and curative measures being taken in the west.

Building Permits in Calgary.—Winnipeg, Man., Aug. 29.—Building permits issued in Calgary for the last seven months of the year number 1,000, at an estimated cost of \$925,290, an increase over the same period for 1913 of \$380,626. Permits already issued for the current month amount to \$100,000. The total amount of building permits issued in Brandon date has reached \$430,000. The same goes for the half million to be reached before the end of the year.

CHINA PROTESTS THE AGREEMENT

Feeble Government has Allowed
France and Japan to get a
Strong Foothold.

Peking, China, Aug. 25.—China made a protest on Aug. 19 to France and Japan against the covenant of their recent agreement providing for international police in the vast regions of the so-called Chinese dominion. The protest has resulted in a remarkable suspension of public activities by the authorities. It is claimed that China has been prohibited from her rights, owing to the cowardice of the present Chinese government, the covering position of the throne and its overlordship by Japan.

The protest, which the Wei Wu Pa, or board of foreign affairs, for the purpose of not giving offense, modified to mild character, is to the effect that the agreement of China's allied opponents, is "not to be considered as right."

The protest has aroused the indignation of Japanese who have ignored it, leaving the French here to persuade the Wei Wu Pa to drop it. While China's resentment at the partition of Japan, which country is acquiring the position of her protector, is increasing, the government is yet to seek and attempt to combine the assistance of the Empire with official action, promising the dangerous policy of secrecy.

The attitude of the foreigners here has reached a stage of pronounced antagonism to the Japanese, especially among those belonging to the nations which are the allies of Japan. This antagonism has been largely provoked by the Japanese constant success both in Korea and Manchuria. A new movement, headed by Chang Chin Tang, has been started among the Chinese to promote native enterprises in Peking for the purpose of offsetting the effects of the Japanese to obtain a foothold in that province.

THE GUILLOTINE AGAIN IN VOGUE

In France for Consumption of
Capital Punishment—To be
Used at Once.

Paris, Aug. 25.—Twenty-seven people have been guillotined in France for the purpose of capital punishment. The high court today denied the appeal of Solleilant, who was condemned to death last month for the execution of a little child. President Fallieres alone can commute the sentence. There is a considerable element in the population which is in favor of the guillotine. Solleilant, on account of the circumstances of his crime, "the husband's murder," moreover, that the use of this instrument would check the wave of capital assaults which lately have swept over the country.

POLITICAL QUESTION Were Individuals or Party Guilty of Plot Against Czar.

St. Petersburg, Aug. 25.—At the hearing of the court-martial which is trying the persons charged with taking part in the plot to assassinate Emperor Nicholas, which was disclosed last May, Lieut.-Col. Spiridovich, raised the important political question, whether the social revolutionary party were involved in the plot, or whether it was the work of irresponsible individuals. Col. Spiridovich declared that after the dissolution of the Duma, a meeting of social revolutionaries was held in Finland, at which the social revolutionary delegates in the Duma were denounced for their opposition in the delaying that they put in connection in any case. Col. Spiridovich gave Col. Gerasimov, the chief of the Finnish police, as his source of information. The court, upon hearing Col. Spiridovich's statement, summoned Col. Gerasimov to testify.

A COMPANY TOWN. Can't Do Business in Prince Rupert Except By Grace of G.T.P.

Vancouver, Aug. 25.—John Houston, proprietor of the first Prince Rupert newspaper still has his plant on the wharf at Prince Rupert. The Grand Trunk Pacific will not rent, or sell him space for an office, another newspaperman having been selected to publish a paper there. Houston now threatens to build a newspaper on a small plot of land on a wharf anchored in the harbor. He says his press is badly damaged from being on a wharf for several years.

THOUSANDS EN ROUTE.

Seven Trains of Migrants Left Toronto For West.
Toronto, August 25.—Four thousand people left Toronto for the west today on the two excursions, home seekers and farm laborers, carried in seven trains. While the number is among the largest that ever left the city in a single day, railway officials state that fewer laborers than usual will leave Ontario this year than formerly.

DOUGHBOBS WARNED.
Kootenai, Ont., August 25.—Yesterday at the police court two doughbobs were brought up on remand for trespass, and discharged by Judge Moor, who warned them, through an interpreter, that should they appear again before him he would deal severely with them, and give them the longest term of imprisonment that he could. The doughbobs took to heart of his words and have quitted the town, going northwards.
